MINISTRY OF HEALTH

DIRECTIVE NO. 1-21

AUTHORIZING ISOLATION AND QUARANTINE MEASURES TO PREVENT AND MITIGATE CORONAVIRUS DISEASE 2019 (COVID-19)

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that was first identified in December 2019, and that occurs through human-to-human respiratory transmission and presents symptoms that are similar with influenza; and

WHEREAS, COVID-19 presents a major threat to public health in the Republic, and is particularly dangerous to the elderly or those with respiratory or other underlying medical conditions; and

WHEREAS, as of January 3, 2021, there are over 84 million confirmed cases globally, including confirmed cases in every jurisdiction with direct air or sea transportation to the Republic and that new variants of the virus have been identified in numerous jurisdictions globally; and

WHEREAS, the World Health Organization (WHO) declared the COVID-19 outbreak as a Public Health Emergency of International Concern (PHEIC) on February 11, 2020, and further characterized it as a Pandemic on March 12, 2020. The WHO and CDC recommend that all countries and territories implement aggressive measures to prevent and control the transmission of COVID-19; and

WHEREAS, the Minister of Health has certified the ongoing COVID-19 pandemic as an unavoidable emergency in the Republic, channeling all efforts toward establishing adequate testing protocols, and appropriate facilities for isolation and quarantine of effected persons;

NOW THEREFORE, by virtue of the authority vested in me as the Minister of Health of the Republic of Palau and after consultation with the National Emergency Committee (NEC), I hereby authorize Isolation and Quarantine pursuant to 34 PNC § 102(m) and 34 PNC § 701 and the Ministry of Health Rules & Regulations for Isolation and Quarantine of Contagious Diseases to prevent import and mitigate the spread of COVID-19 in the Republic of Palau, as follows:

Section 1. Isolation. The isolation of persons infected by COVID-19 is hereby authorized as follows:

- Any person proven or strongly suspected to be infected with COVID-19 shall be isolated for a period of at least fourteen (14) days; and
- Infection may be proven or strongly suspected based on a presumptive test result, a confirmatory test result, or the exhibition of known COVID-19 symptoms.

Section 2. Quarantine. The quarantine of persons exposed to COVID-19 is hereby authorized as follows:

- Any person determined to have been exposed to COVID-19 shall undergo mandatory quarantine for a period of at least fourteen (14) days, unless otherwise specified below;

- Any person who has had direct contact with a person infected by COVID-19 shall be considered to have been exposed to COVID-19 and quarantined for a period of at least fourteen (14) days; and
- Any person who has had indirect contact with COVID-19, such as contact with potentially contaminated surfaces, may be considered to have been exposed to COVID-19 and quarantined for an appropriate period; and
- Any person who has had indirect contact with a person who has been exposed to COVID-19 may be considered to have been exposed to COVID-19 and quarantined for an appropriate period.

Section 3. Quarantine and Testing Requirements Applicable to International Travel into the Republic:

- All persons traveling into the Republic shall undergo a pre-arrival quarantine period for fourteen (14) days prior to departure to the Republic; and
- All travelers must provide two (2) negative Polymerase Chain Reaction (PCR) COVID-19 test results undertaken at the beginning of the pre-arrival self-quarantine period and the second within seventy-two (72) hours prior to departure to the Republic; and
- All persons arriving into the Republic from an international jurisdiction shall be considered to have been potentially exposed to COVID-19 and must undergo mandatory quarantine at a government designated facility for a period up to fourteen (14) days and must undergo appropriate COVID-19 testing during the mandatory quarantine period; and
- All persons arriving into the Republic from an international jurisdiction shall also undergo a self-monitoring, self-quarantine period for an additional seven (7) days after the mandatory quarantine period.
- Airlines and military that operate flights into the Republic must also provide aircraft crew member negative PCR COVID-19 test results and/or provide official documentation on infection control measures implemented for aircraft operations and health management protocols for personnel;
- Any crew member of any air or water vessel that disembarks into the Republic of Palau shall be subject to these regulations and shall undergo mandatory quarantine, except in cases wherein an air or water vessel breaks down unexpectedly within the territory of the Republic. In such cases, any crew member disembarking such vessel shall be quarantined for an appropriate period or until the vessel is repaired and ready to depart Palau, at which time quarantined crew members may be permitted to re-board their vessels. Crew members of such disabled vessels shall be securely transported to and from official quarantine facilities, and at no time shall any crew member be permitted to contact the general population without completing the appropriate period of mandatory quarantine.

Section 4. Isolation Facilities.

- The Alternate Care Site (ACS) at Kalau Gym in Meyuns, Koror shall be the primary Isolation and care Facility for non-critical infected persons; and
- The isolation rooms of Belau National Hospital shall be reserved for infected persons in need of critical care; and
- The Ministry of Health (MOH) shall identify other appropriate and adequate facilities, either public or private property to be designated as Isolation Facilities for COVID-19 infected persons as necessary.

Section 5. Quarantine Facilities.

- MOH or NEC shall identify appropriate and adequate facilities, either public or private property, to be designated as Quarantine Facilities for exposed and potentially exposed persons; and
- If any quarantined person is found to be infected, that person shall be promptly relocated to an appropriate isolation facility.

Section 6. Delegation of Authority.

- Pursuant to 34 PNC § 101 and Section 4.10 of the MOH Rules & Regulations for Isolation and Quarantine of Contagious Diseases, Authority to order the isolation or quarantine of persons found to be infected or exposed within the Republic of Palau or upon arrival into the Republic either by sea or at the Palau International Airport, is hereby delegated to the Director of the Bureau of Public Health Services.

Section 7. Exemptions.

- No exemptions to the isolation or quarantine requirements of this directive may be made, except by the Minister and in writing. The Minister may issue exemptions on an individual, case-by-case basis, only based on an articulable medical justification.

Section 8. Term.

- This directive supersedes and replaces MOH Directive No. 200-20, which was issued October 5, 2020. Unless cancelled, revoked or re-issued, this directive shall remain in effect for 90 days from the date of issuance.

Issued this 3rd day of January 2021 at the Ministry of Health in Koror, Republic of Palau.
