1. What timeframe does the MOE have in mind for Teacher Training Workshops?
   - MOE tentatively plans for the training to happen in January 2022, with the hope that Palau's borders will be opened by then and that there will be regular flights in and out of Palau.

2. The RFP indicates that the MOE is seeking 10 days of training organized into 4 workshops. Does the MOE anticipate that the training workshops will be scheduled on consecutive days of a work-week (i.e., the first training session is on a Monday and the final session is on a Friday of the following week)? Please advise if the MOE envisions a different schedule.
   - The first training will begin on a Tuesday (as Mondays are PLC (professional learning community - time for schools) to Saturday, skip Sunday and Monday again (Sunday & Monday will be rest day) and begin again on Tuesday and end on Saturday.
